## PROJECTS & WEB APPLICATIONS

### **String Theory – Guitar Chord Library Web App**

April – June 2025

- Full-stack web app that displays song lyrics with aligned chords, inspired by E-Chords.
- Designed an admin panel for manual song uploads with chord transposition via data-chord spans.
- Implemented light/dark mode toggle and responsive design for all devices.
- Tech stack: PHP, MySQL, JavaScript, HTML, CSS.

### **Movie Overview Website (TMDB API)**

April – May 2024

- Dynamic movie listing site using the TMDB API to show real-time titles, posters, ratings, and details.
- Built live search, genre filters, and movie detail pages using JavaScript and Bootstrap.
- Focused on JSON parsing, API integration, and responsive UI design.
- Tech stack: JavaScript, HTML, CSS, Bootstrap.

### **Well-Being Website – Mental Health Tracker for Staff & Students**

July –August 2024

- Mental health support tool where users rate happiness, workload, and anxiety daily (1–5 scale).
- Triggers therapist reminder if any score stays below 2 for 3 consecutive days.
- Features dynamic daily motivational quote generator (based on day of year).
- Tech stack: PHP, MySQL, JavaScript, HTML, CSS.

### **Portfolio Page**

- Developed and designed a personal portfolio website to showcase skills, projects, and contact details.
- Built with responsive design for both desktop and mobile screens.
- Features dark/light mode toggle, animated sections, and integrated resume download.
- Note: This project is still in progress and further improvements are planned.
